

LEGENDA

KEY - CAPTIONS

Per facilitare la consultazione del fascicolo, alleghiamo alle foto di ciascun oggetto una semplice iconografia per evidenziarne le caratteristiche principali. Segue legenda. Alla fine di ogni sezione una scheda generale esauriente vi aiuterà a scegliere il prodotto più adatto.

For easy consultation, we have added a simple iconography to each picture to highlight its main features. Captions come after that. An exhaustive general data sheet at the end of each section will help you choose the most suitable solution.

NUMERO DI BOTTIGLIE DA 750ml, capacity for 750 ml. bottles, kapazität - flaschen 750 ml., n.° de botellas de 750 ml., capacité bouteilles 750 ml.

CAPACITÀ IN Kg., total capacity Kg., kapazität Kg., capacidad total Kg., capacité total Kg.

RANGE DI TEMPERATURE, range of temperature, temperaturbereich, rango de tempertura, température réglable.

VERSIONE MONOTEMPERATURA, version one temperature, lagerschräncke, versión una temperatura, version température unique.

VERSIONE DUAL, version two temperature, zweizönschräncke, versión dos temperaturas, version double température.

VERSIONE MULTITEMPERATURA, version multi temperature, temperierschräncke, versión varias temperaturas, version plusieres températures.

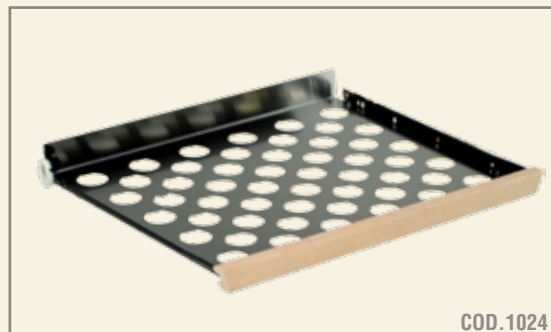

DIMENSIONI (mm), dimension (mm), abmessungen (mm), dimensiones (mm), dimension du produit (mm).

“ Chi ama e conosce il vino sa bene
quanto sia nobile e antica
l'arte di preservare la qualità nel tempo.
Le cantine climatizzate IP
sono l'espressione evoluta di quest'arte. ”

III EDIZIONE

*“ Those who love and appreciate wine
know very well how noble and ancient
the art of maintaining quality is.
IP chilled cabinets
are an advanced form of that art. ”*

3rd RELEASE

IP S.p.A. nasce come industria specializzata in armadi refrigerati per la conservazione e il servizio del vino. La nostra storia è caratterizzata dalla volontà di progettare e realizzare le soluzioni più idonee ed eleganti per soddisfare le più svariate esigenze sia nella ristorazione che nel privato. IP S.p.A., grazie all'esperienza e ad un personale altamente qualificato, pone sul mercato mondiale una vastissima gamma di prodotti, non solo per la conservazione ed il servizio del vino, ma anche per sigari (Linea Humidor) e per la stagionatura e conservazione dei salumi e dei formaggi (Linea Salumeria). L'alta tecnologia, la raffinatezza delle forme e la qualità dei prodotti, fanno della collezione IP un'alta espressione del Made in Italy in tutto il mondo.

IP S.p.A. was established as a specialist in the production of chilled cabinets for storing and serving wine. All through our history, our mission has been to design and produce the most suitable and stylish solutions to fulfil the needs of the catering industry and private customers. Relying on extensive experience and highly-skilled staff, IP S.p.A. sells on the world's markets a very wide range of products, not just for storing and serving wine but also for cigars (the Humidor range) and for the ageing and storage of hams and cheese (the Salumeria range). The high technology, sleek lines and quality of its products make the IP Collection one of the loftiest expressions of Italian-made products in the world.

linea **WINE ROOM**

WINE ROOM

AMBIENTE CLIMATIZZATO REALIZZATO SU MISURA
CUSTOM-MADE AIR CONDITIONED ROOM

Wine Room è stato progettato per consentire l'ingresso di almeno una persona, che può disporre di una cantina d'avanguardia e allo stesso tempo di una vetrina espositiva per le bottiglie più preziose.

- Modello nella foto/dimensioni: H 250cm X L 150cm X P 150cm
- Illuminazione interna con led a luce fredda
- Vetri isolanti, anti raggi UV, anticondensa e antinfortunistica, di colore brunito
- Porta scorrevole o a battente, con serratura
- Climatizzazione monoblocco o split e unità remota
- Temperatura di conservazione regolabile
- Controllo dell'umidità
- Porta bottiglie in plexiglass di diverse forme

I SOPRALLUOGHI E IL MONTAGGIO SONO EFFETTUATI DIRETTAMENTE DAL NOSTRO PERSONALE TECNICO.

Wine Room is a custom-made air conditioned unit whose size allows the access of one standing person.

- *Pictured model: 2.50 m H, 1.50 m W, 1.50 m D*
- *Lighting: cold light LEDs*
- *Brown safety glass insulates and reflects UV rays for best wine storage and avoids humidity condensation*
- *Swinging or sliding, lockable door*
- *Air conditioning: cylinder block or split with remote unit*
- *Adjustable temperature*
- *Humidity control*
- *Bottle racks are made of multi-shaped Plexiglas*

INSPECTIONS AND ASSEMBLY ARE PERFORMED DIRECTLY BY OUR ENGINEERS

Porta bottiglie in plexiglass di diverse forme - *Bottle racks made of multi-shaped plexiglas*

Porta scorrevole o a battente con pratica maniglia
Sliding or swing door with handle

Vetri isolanti, anti raggi UV e anticondensa
Brown glass, insulating and reflecting UV rays

Illuminazione interna con led a luce fredda
Illumination by cold light leds

A close-up photograph of a wooden surface, possibly a table or desk, with a warm, golden-brown tone. Three green cylindrical objects, likely pens or pencils, are arranged horizontally on the surface. The object on the left is in sharp focus, showing a textured green cap. The other two are blurred. In the background, a string of red lights is visible, creating a bokeh effect with out-of-focus circular highlights. The overall lighting is soft and warm.

CARRELLO LIZ

LIZ - CT 245

ISOLA DI LAVORO IN ACCIAIO INOX
SELF STANDING STAINLESS-STEEL WORKSTATION

Liz è un'isola di lavoro in acciaio inox munita di cantina climatizzata disponibile sia nella versione mono che a doppia temperatura.

La completa dotazione di accessori pratici e funzionali, permette di servire i vostri migliori vini in modo impeccabile. Le quattro ruote pivotanti, di cui due con freno, agevolano lo spostamento in ogni tipo di ambiente interno o esterno. E' disponibile anche in postazione fissa su piedini regolabili.

- Vedi specifiche articolo JG 45 - pag. 43

Liz is a self standing stainless-steel workstation equipped with air conditioned wine cellar available in mono and double temperature.

The full accessories set (practical and handy) helps you preparing and dressing your wines in the best way.

The four pivoting wheels , two of which are equipped with brakes, help movement in any environment (both indoor and outdoor).

It is also available as fixed workstation with adjustable feet.

- See JG 45 specifications - pag. 43

ACCESSORI - ACCESSORIES

Ampio piano di lavoro in acciaio inox con dimensioni 67 x 136 cm la cui linearità permette una facile e perfetta pulizia. Un solido ripiano in legno massello dotato di traverse asportabili per un'agevole pulizia è un elegante e funzionale piano d'appoggio che all'occasione può essere utilizzato come tagliere.

The wide stainless-steel working shelf size 67 x 136 cm, is easy to clean thanks to its fully linear surface. A firm solid wood equipped with removable beams to make cleaning easier, becomes an elegant and functional supporting shelf that can also be used as a trencher.

Otto pratici vani per inserire i cannotti portabottiglie in acciaio inox o ciotole portafrutta e snacks. Tutti estraibili e facilmente intercambiabili.

Eight handy vains can be used to store the stainless steel bottle-tubes fruit and snack bowls all of them easily interchangeable.

Due pratici porta calici regolabili per avere sempre a disposizione il bicchiere adatto al tipo di vino da servire. Possibilità di personalizzazione.

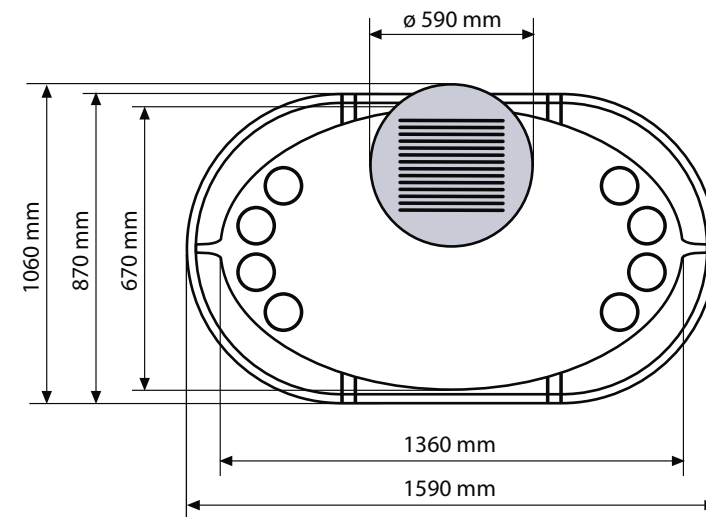

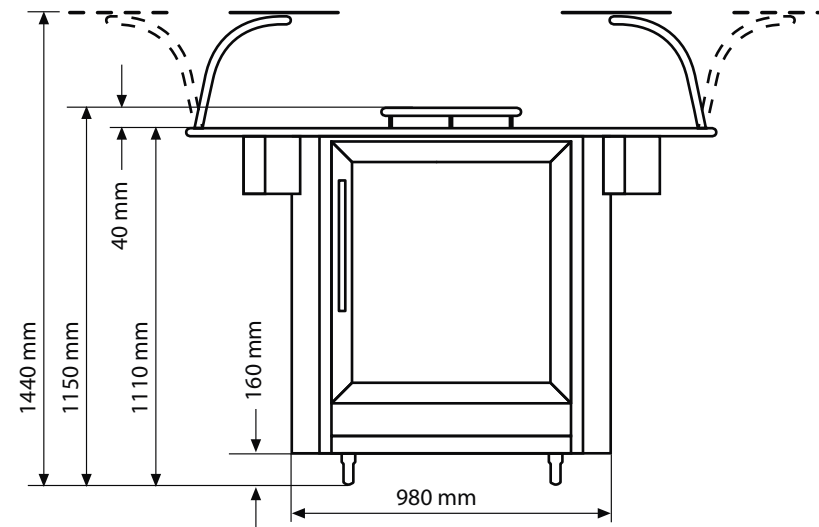

Features two handy flute racks to always have the best type of glass ready. Possibility of personalisation.

Il cestello portaghiaccio in acciaio inox è regolabile ed asportabile e grazie al suo speciale sostegno può essere collocato nella posizione più consona al suo utilizzo.

The stainless-steel ice-tray is fully adjustable and removable and thanks to its special support it can always be placed in the preferred position for use.

LIZZY - CT 145

ISOLA DI LAVORO IN ACCIAIO INOX E LEGNO
SELF STANDING WOOD AND STAINLESS-STEEL WORKSTATION

Dimensioni ridotte per Lizzy, ma stesso pratico concetto di postazione di lavoro che permette di servire i vostri vini alla giusta temperatura ovunque, comodamente ed in modo perfetto grazie alla ricca dotazione di accessori pratici e funzionali.

Con Lizzy potete scegliere il tipo di cantina climatizzata più adatto alle vostre esigenze:

- Monotemperatura (temperatura unica, regolabile – capienza 45 bottiglie)
- Dual (doppia temperatura, regolabile – capienza 16+29 bottiglie)

Scegliendo la versione con ruote, di cui due con freno, sarà facilissimo spostare Lizzy nei vari ambienti interni ad esterni.

E' disponibile anche in postazione fissa su piedini regolabili.

- Vedi specifiche articolo JG 45 A e AD X - pag. 43

Lizzy is a new product conceived to bring together the usefulness of a wine cooler and the practicality of a work station.

As a wine cooler, Lizzy is available in two alternative options:

- Mono: one compartment with the capacity for 45 bottles and with adjustable temperature
- Dual: two independent compartments with the capacity for 16 + 29 bottles, each with adjustable temperature.

As a work station, Lizzy has reduced dimensions and a rich set of accessories. It is available either in a fixed option with adjustable feet, or as a movable workspace with locking wheels

Adapting to your exigences, Lizzy is a versatile product that allows serving your wine everywhere, easily and elegantly

- See JG 45 A e AD X specifications - pag. 43

ABT 4 CFX

	100mm: 3		- 38°		260 watt
	130mm: 1				

ABT 4 CFX

ABBATTITORE DI TEMPERATURA
FAST CHILLER

ABT 4 CFX è un indispensabile e semplice strumento di lavoro. Bastano pochi minuti per raffreddare le vostre bottiglie e portarle alla temperatura di servizio desiderata. E' studiato per essere utilizzato sia con bottiglie di vetro che di plastica ed anche lattine; è dotato di quattro alloggiamenti, di cui uno per bottiglie di grosso diametro o magnum. Di facile uso, con regolazione indipendente del tempo di refrigerazione per ogni postazione, è uno strumento essenziale per ristoranti, bar ed enoteche che vogliono poter servire sempre i loro vini alla temperatura perfetta.

TEMPI DI RAFFREDDAMENTO: -2 °C AL MINUTO (BOTTIGLIE IN VETRO DA 0.750 ML).

IL SISTEMA DI REFRIGERAZIONE CON COMPRESSORE (CARICA GAS R 404) PERMETTE DI PORTARE IL LIQUIDO IN VASCA (MISCELA GLICOLE / ACQUA) ALLA TEMPERATURA DI REGIME DI -38/-40°C.

ABT 4 CFX is a user-friendly, must-have working tool. Just a few minutes are required to quickly cool down your bottles and bring them to the temperature desired. Our fast chiller can be used for glass bottles, plastic bottles or cans. It comes with four casings: one of them is specially conceived for large or magnum bottles. ABT 4 is easy to use as the four casings have an independent cooling time adjustment system. Our fast chiller is an unmissable tool for restaurants, bars and wine shops aiming at serving wines at the perfect temperature.

COOLING TIME : -2°C PER MINUTE (0.75 ML GLASS BOTTLES).

OUR REFRIGERATION SYSTEM IS EQUIPPED WITH A COMPRESSOR (CONTAINING GAS R 404) THAT ALLOWS BRINGING THE LIQUID IN THE TUB (GLYCOL/WATER MIX) AT THE SERVICE TEMPERATURE OF -38/-40°C.

Regolazione singola per ogni alloggiamento.
Segnale acustico e visivo a fine programmazione.
Independent regulation of the cooling time for each lodging. Acoustic and visual signal at the end of the programming.

Robuste ed eleganti finiture. Le ruote con fermo permettono un facile spostamento.

Strong and elegant finishes. Wheels (with stoppers) allow easy moving.

Disponibile anche nella versione incasso

Also available built-in version
mm (L) 600 x (P) 680 x (H) 900

Coperchi di riduzione consumi.

Lids reducing consumption.

linea **LE VERRE DE VIN**

BC 04 DUAL

MODELLO COMPATTO PER VINI FERMI E SPUMANTI/CHAMPAGNE
"COMPACT" DUAL SYSTEM FOR STILL WINES AND CHAMPAGNE

È un innovativo sistema, semplice e funzionale, che consente di preservare il vino in un numero illimitato di bottiglie aperte. Potrete sempre servire un calice di vino sia fermo che frizzante, come se fosse appena stappato. Facile da usare, il nostro sistema richiede solamente da 2 a 5 secondi (in base alla quantità di vino rimasto) per creare, all'interno della bottiglia, il vuoto idoneo alla perfetta tenuta del vino. Il controllo del livello del vuoto è essenziale per assicurare il massimo periodo di mantenimento del vino, senza arrecare danni o modificarne la struttura.

Nella versione DUAL è possibile avere la stessa funzione di mantenimento anche per le bottiglie di spumante o champagne, tramite l'introduzione di quantità controllata di diossido di carbonio (CO_2). All'interno delle bottiglie viene così ricreata la pressione equilibrata e precisa che assicura la naturale frizzantezza dello spumante e dello champagne.

An advanced, easy-to-use, functional system allowing to preserve an unlimited number of open wine bottles. You will always be able to serve a still or sparkling wine glass as if the bottle had just been uncorked. This easy-to-use system only requires 2-5 seconds to create a perfect vacuum inside the bottle. Vacuum control is vital to ensure maximum wine conservation time with no damage or structure change.

The dual version also provides for the same preservation system for either sparkling wine or champagne with the introduction of a controlled quantity of carbon dioxide (CO_2). A balance, accurate pressure is thus created inside the bottles ensuring a natural sparkling for wine and champagne.

BC 03 SINGLE

MODELLO COMPATTO PER VINI FERMI
"COMPACT" SINGLE SYSTEM FOR STILL WINES

BC 01 SINGLE

MODELLO CLASSICO PER VINI FERMI
"CLASSIC" SINGLE SYSTEM FOR STILL WINES

BC 02 DUAL

MODELLO CLASSICO PER VINI FERMI E SPUMANTI/CHAMPAGNE
"CLASSIC" DUAL SYSTEM FOR STILL WINES AND CHAMPAGNE

Potete finalmente permettervi di servire al calice qualsiasi tipo di vino, certi che con il sistema innovativo "Le Verre de Vin" garantito da IP Industrie, offrirete sempre il vino in perfette condizioni, fino all'ultima goccia.

Thanks to our innovative, IP-guaranteed "Le Verre de Vin" system, you will be able to serve any kind of wine glass being confident that it is in perfect conditions, up to the last drop.

BC 402

MODELLO POD BAR PER VINI FERMI E SPUMANTI/CHAMPAGNE
INTEGRATO CON 1 CELLA REFRIGERATA
POD BAR SYSTEM FOR STILL WINE AND CHAMPAGNE
COMBINED WITH 1 WINE COOLER

BC 404

MODELLO POD BAR PER VINI FERMI E SPUMANTI/CHAMPAGNE
INTEGRATO CON 2 CELLE REFRIGERATE
POD BAR SYSTEM FOR STILL WINE AND CHAMPAGNE
COMBINED WITH 2 WINE COOLERS

LE VERRE DE VIN

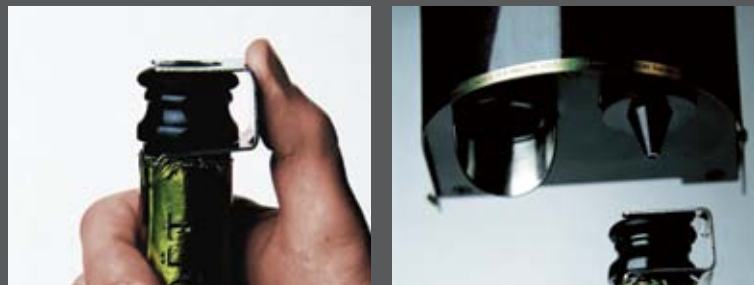

ISTRUZIONI PER L'USO. Un illimitato numero di vini può essere servito in modo perfetto utilizzando il sistema “Le Verre de Vin” e gli appositi tappi.
USER INSTRUCTIONS. *Serve an unlimited number of perfectly preserved wines. “Le Verre de Vin” system only requires a special cork for each bottle you use.*

VINI FERMI - STILL WINES

Dopo avere servito un calice di vino, inserire nella bottiglia l'apposito tappo di gomma dotato di valvola di non ritorno in sostituzione del sughero originale. Per attivare “Le Verre De Vin” collocare la bottiglia al sistema di aspirazione e fare una leggera pressione; in questo modo la bottiglia verrà sigillata. L'accensione della spia arancione indica che il sistema è in funzione; nel giro di 2/5 secondi si illuminerà la luce verde ad indicare che il processo è completato. A questo punto la bottiglia è stata nuovamente sigillata e potrà essere riposta nel vano di stoccaggio.

After you serve a glass of wine, a rubber cap provided with a special check valve is inserted into the bottle neck replacing the original cork. You can seal the bottle by simply applying a light pressure after placing a fastener for the suction system. “Le Verre De Vin” is enabled with the relevant orange light indicating that the re-sealing system is working. After 2 - 5 seconds, a green signal lights up indicating that the process is completed. Now you can place the bottle back into the stocking area.

VINI SPUMANTI/CHAMPAGNE - SPARKLING WINES/CHAMPAGNE

La procedura per sigillare i vini spumanti è molto simile. Inserire nella bottiglia un fermo champagne munito di valvola, predisposto con gancio di sicurezza. Attivare “Le Verre de Vin” facendo una leggera pressione verso il beccuccio. In questo modo verrà introdotta una quantità misurata di diossido di carbonio (CO_2) all'interno della bottiglia. Si accenderà una luce verde a segnalare che il processo è terminato. Con queste semplici operazioni potrete mantenere le condizioni originali del vino per circa 21 giorni.

Sparkling wines can be sealed following a similar procedure. A special champagne cap provided with a valve and a safety hook is used to replace the original cork. After placing the fastener with a light pressure toward the lip, “Le Verre de Vin” system is triggered introducing a controlled pressure of carbon dioxide (CO_2) into the bottle. The special green sign lights up to indicate when the process is completed. These simple operations will allow to keep wine characteristics unaltered for 21 days approximately.

IP Industrie, con la linea dedicata a salumi e formaggi, offre diverse soluzioni per soddisfare i bisogni, le richieste e le aspettative della clientela più esigente.

GAMMA PER IL MANTENIMENTO E IL SERVIZIO:

Dotate di sistema di refrigerazione statica, con uno o due compressori e programma di riscaldamento automatico di serie. E' possibile programmare la temperatura desiderata all'interno delle celle, da +4° a +18°, mantenendo il giusto grado di umidità.

IP Industrie, with its ham and cheese range, offers a variety of solutions to cater to the needs, expectations and requests of the most demanding customers.

STORAGE AND SERVING RANGE:

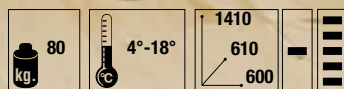

Featuring a static cooling system with one or two compressors and a standard automatic heating system. Temperature in the stores can be set between +4° and +18°, for optimum moisture level.

Con il sistema GEOTRONIC nasce la linea di climatizzazione priva di gas, basata sull'effetto Peltier. Garantisce silenziosità, uniformità di temperatura, assenza di vibrazioni e, con il recupero della condensa, un'umidità pari al 75/80%.

E' dotata di un controllo incorporato che ne ottimizza il funzionamento, minimizzando i consumi di elettricità.

The GEOTRONIC system is the first born in a gas-free, Peltier-effect air conditioning range. Guaranteed noiselessness, even temperature, no vibrations, while the condensation trap system provides 75/80% humidity.

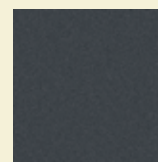

Features an in-built control for optimum operation and low power consumption.

La ricerca IP Industrie ha sviluppato un sistema multifunzionale ideato per conservare i più pregiati prodotti enogastronomici.

La linea “dispensa” e’ stata studiata per garantire al cliente la massima libertà nel personalizzare ed organizzare le diverse zone, in funzione del prodotto da preservare.

Ip industrie's research has developed a multipurpose system to store your most valuable foods and wines.

The range “larder” has been designed to provide the customer with greatest freedom in customising and arranging different areas, depending on which products are to be stored.

W1 - VINO - WINE

PER IL MANTENIMENTO E SERVIZIO DEL VINO. AMPIA SCELTA DI GRIGLIE REGOLABILI PER LO STOCCAGGIO DELLE BOTTIGLIE

*TO STORE OR SERVE WINE
A WIDE RANGE OF ADJUSTABLE SHELVES TO STORE BOTTLES*

S1 - SALUMI - HAM

PER LA STAGIONATURA E SERVIZIO DEI SALUMI, ALLESTIMENTI PERSONALIZZATI PER LE DIVERSE TIPOLOGIE DI PRODOTTO

*TO CURE OR SERVE COLD MEATS
CUSTOMISED LAYOUTS FOR DIFFERENT PRODUCTS*

C1 - FORMAGGI - CHEESE

PER IL MANTENIMENTO E SERVIZIO DEI FORMAGGI. ELEGANTI E FUNZIONALI RIPIANI SCORREVOLI PERMETTONO GRANDE VERSATILITÀ

TO STORE OR SERVE CHEESE. ELEGANT, PRACTICAL SLIDING SHELVES FOR UTMOST FLEXIBILITY

T1 - SIGARI - CIGARS

INDISPENSABILE PER IL MANTENIMENTO DEI SIGARI. DOTATO DI UMIDIFICATORE MOD. V 1013, PERMETTE L'IMPOSTAZIONE DELL'UMIDITÀ RICHIESTA

ESSENTIAL TO STORE CIGARS. EQUIPPED WITH DEHUMIDIFIER (mod. v. 1013) WITH ADJUSTABLE HUMIDITY SETTING

V1 - VEGETALI - VEGETABLES

UN AMPIO SPAZIO PER LA FRESCHEZZA DI FRUTTA E VERDURA. ELEGANTI RIPIANI IN LEGNO

*A LARGE AREA TO KEEP FRUIT AND VEGETABLES FRESH
ELEGANT, PRACTICAL WOODEN SHELVES*

A close-up photograph of a dark-stained wooden cabinet. The cabinet features three drawers, each with a light-colored wood trim strip running diagonally across its front. Three round, light-colored knobs are visible on the right side of the drawers. The lighting is warm and focused, highlighting the textures of the wood and the metallic finish of the knobs.

lineaHUMIDOR

I sigari preparati a mano sono prodotti interamente naturali, per questo motivo, se non conservati alle giuste condizioni ambientali, nel tempo andranno incontro a deterioramento. Un alto tasso di umidità e una temperatura stabile, compresa tra 17° e 21°C, costituiscono i valori ambientali ideali per la loro conservazione. Per mantenere queste condizioni è essenziale avere un humidor.

IP Industrie, a complemento di un'ampia gamma di celle per la conservazione ed il servizio di vino, salumi e formaggi, propone due sistemi di Humidor necessari per il buon mantenimento e la perfetta presentazione dei sigari.

Hand-made cigars are entirely natural products; that's why, if they are not stored under the right room conditions, they will eventually deteriorate. A high humidity rate and a steady temperature, ranging between 17 and 21 degrees, are the ideal storage conditions. To keep them in such conditions, a humidor is a must.

IP Industrie had added up to its wide range of cabinets for storing and serving wine, sausage and cheese, two types of humidors which are essential to store and showcase cigars in the best possible way.

C 401 SG

V 1013

Il modello V 1013 utilizzato da IP Industrie, può essere montato all'interno di una delle nostre vetrine climatizzate a vostra scelta. Permette di generare il micro-clima ideale per la conservazione dei sigari: 18°C circa e 70% RH di umidità. Nelle nostre celle, grazie al sistema refrigerazione / riscaldamento ed all'apposito termostato elettronico, è possibile impostare sia la temperatura che l'umidità desiderata. Utilizzabile nei modelli da 150 a 300 L.

The V 1013 model used by IP Industrie can be fitted into any one of our chilled cabinets. It produces the ideal microclimate to store cigars: approximately 18° and 70% relative humidity. The cooling/heating system and electronic thermostat in our chilled cabinets, enable you to set the temperature and humidity you like. Fit for 150- to 300-litre models.

L'aria presente all'interno della cella viene aspirata dall'umidificatore. In questo speciale dispositivo dotato di una batteria di lamelle rotanti, l'aria passando attraverso l'acqua, acquista umidità. Odori e particelle di sporco vengono trattenute nell'acqua che fa quindi da filtro.

The air into the store flows into the humidifier. In this special device featuring a revolving-blade battery, the air, as it passes through the water, acquires humidity. Odours and dirt particles are trapped by the water, acting as a filter.

VERSIONI DISPONIBILI

AVAILABLE VERSIONS

VERSIONE MONOTEMPERATURA

Permette di impostare tutta la cella ad un'unica temperatura prescelta .
Ideale per la conservazione o per un'unica tipologia di vino. FUNZIONE NO FROST: Opzione consigliata per l'utilizzo a bassa umidità.

SINGLE-TEMPERATURE VERSION

The store has one selectable temperature, ideal for storage or for one type of wine. NO FROST FEATURE: This feature is recommended for use at a low humidity level.

VERSIONE DUAL

Due zone a due temperature differenti in un'unica cella.
La facilità di gestire vini bianchi e rossi contemporaneamente.

DUAL VERSION

Two areas, two separate temperatures in one cabinet makes it easy to handle red and white wine together.

VERSIONE MULTITEMPERATURA

Garantisce la possibilità di mantenere le varie tipologie di vino alla giusta temperatura di servizio. Il tutto in un'unica cella.

MULTI-TEMPERATURE VERSION

Every types of wines can be kept at the right serving temperature all this in one single cabinet.
